

THC IMPAIRED DRIVING COURSE LIGHT SET-UP

Instructional Video:

<https://vimeo.com/innocorp/mjlights>

- 1 Open the box of lights.

- 2 Discard the back cover of the light

- 3 Attach the black metal plate to the back lower half of the light

- 4 Place the magnetic clip from the clamp to the black metal plate

- 5 Add the clamp to the top of the cone

- 6 How to turn on the light—Press the top ON/OFF button for three (3) seconds

- 7 Cycle through and change the light colors by pressing the top button

Do not use the remote to change the color of the lights on the course.

- 8 Charge the lights by using the included USB-C cords and charger. The light by the ON/OFF button will flash red when charging—it will become a solid red when charging is completed
